

Project Development Phase

Performance Testing

Date	19 February 2026
Team ID	LTVIP2026TMIDS89796
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	

1. Objective of Testing

To verify that the UNESCO World Heritage Sites 2019 Tableau website loads correctly, displays Dashboard 1, Dashboard 2, and Story, works after GitHub upload and Netlify deployment, and is responsive and error-free.

2. Test Environment

Parameter	Details
Operating System	Windows 10
Browser Used	Chrome / Edge
Frontend	React
Backend	Flask
Hosting	Netlify
Data Visualization	Tableau Public

3. Functional Testing Results

Test Case ID	Test Description	Expected Result	Actual Result	Status
TC-01	Website opens from local server	Homepage loads successfully	Loaded correctly	Pass
TC-02	Heading displays	Project title visible	Displayed properly	Pass
TC-03	Dashboard 1 loads	Tableau dashboard visible	Loaded successfully	Pass
TC-04	Dashboard 2 loads	Tableau dashboard visible	Loaded successfully	Pass
TC-05	Story loads	Tableau story visible	Loaded successfully	Pass
TC-06	Page responsiveness	Adjusts to screen size	Works correctly	Pass
Tc-07	Flask Hosting	Webserver and	Loaded	Pass

		hosting	successfully	
TC-08	GitHub deployment	Code available online	Uploaded successfully	Pass
TC-09	Netlify deployment	Live website accessible	Working link generated	Pass

4. Performance Testing

Metric	Result
Page load time	~2-4 seconds
Tableau rendering time	~3-6 seconds
Errors in console	None
Broken links	None

5. Conclusion of Testing

All functional and deployment tests passed successfully. The system correctly displays Tableau dashboards and story through a React-based web interface and is successfully deployed online.
