

## Ideation Phase

### Define the Problem Statements

|               |                                                                                    |
|---------------|------------------------------------------------------------------------------------|
| Date          | 19 February 2026                                                                   |
| Team ID       | LTVIP2026TMIDS89796                                                                |
| Project Name  | Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau |
| Maximum Marks | 2 Marks                                                                            |

#### General User / Heritage Enthusiast Problem Statement

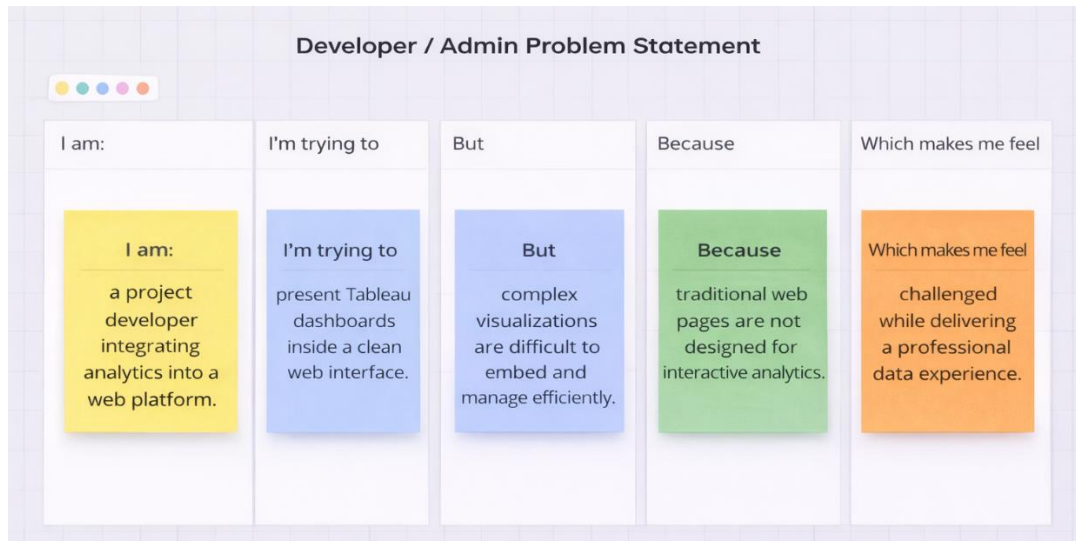

|                                                                                       |                                                                                |                                                                             |                                                                                         |                                                                                |
|---------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|-----------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|
| I am:                                                                                 | I'm trying to                                                                  | But                                                                         | Because                                                                                 | Which makes me feel                                                            |
| <div>I am:<br/>a user curious about global cultural and natural heritage sites.</div> | <div>I'm trying to<br/>explore maps and insights about UNESCO locations.</div> | <div>But<br/>information is scattered across multiple sources online.</div> | <div>Because<br/>there is no unified website combining maps, charts, and stories.</div> | <div>Which makes me feel<br/>disconnected and unsure about the insights.</div> |

#### Researcher / Data Analyst Problem Statement

|                                                                 |                                                                                              |                                                                                           |                                                                                       |                                                                                    |
|-----------------------------------------------------------------|----------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| I am:                                                           | I'm trying to                                                                                | But                                                                                       | Because                                                                               | Which makes me feel                                                                |
| <div>I am:<br/>a researcher analyzing heritage site data.</div> | <div>I'm trying to<br/>compare regions, categories, and endangered site trends easily.</div> | <div>But<br/>manual data analysis takes too much time and lacks clear storytelling.</div> | <div>Because<br/>traditional tools do not provide centralized visual analytics.</div> | <div>Which makes me feel<br/>overwhelmed and less efficient during analysis.</div> |

#### Student / Learner Problem Statement

|                                                                                    |                                                                                           |                                                                                                |                                                                                                 |                                                                                                |
|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|
| I am                                                                               | I'm trying to                                                                             | But                                                                                            | Because                                                                                         | Which makes me feel                                                                            |
| <div>I am:<br/>a student interested in learning about UNESCO heritage sites.</div> | <div>I'm trying to<br/>understand global heritage trends through visual dashboards.</div> | <div>But<br/>the information is mostly available in complex datasets and static reports.</div> | <div>Because<br/>there is no single interactive platform that explains the data visually.</div> | <div>Which makes me feel<br/>confused and less engaged while learning heritage concepts.</div> |

| Problem Statement (PS) | I am                                                 | I'm trying to                                                 | But                                                            | Because                                                              | Which makes me feel                               |
|------------------------|------------------------------------------------------|---------------------------------------------------------------|----------------------------------------------------------------|----------------------------------------------------------------------|---------------------------------------------------|
| PS-1                   | A student or researcher interested in heritage data  | Explore UNESCO heritage site trends and regional distribution | The data is available only in complex tables and reports       | There is no simple interactive visualization platform                | Confused and unable to understand insights easily |
| PS-2                   | A data analyst working with heritage datasets        | Analyze categories such as cultural, natural, and mixed sites | Manual analysis takes more time and effort                     | Lack of centralized dashboards with visual storytelling              | Overwhelmed and less productive                   |
| PS-3                   | A project developer creating analytics dashboards    | Integrate visualizations into a web application               | Traditional web pages cannot present complex analytics clearly | Limited integration between data visualization and web systems       | Challenged while presenting data professionally   |
| PS-4                   | A general user exploring global heritage information | Learn about endangered sites and historical trends            | Information is scattered across multiple sources               | There is no single interactive platform combining maps and analytics | Disconnected and less engaged with the data       |
