

Project Design Phase-I Solution Architecture

Date	19 February 2026
Team ID	LTVIP2026TMIDS89796
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture defines how business needs are transformed into a structured technical solution. In this project, it explains how Tableau dashboards, Flask backend, and the web interface work together to deliver interactive UNESCO World Heritage analytics.

The Goals are:

- Select the best technology to solve the problem.
- Explain system structure and features clearly.
- Define development phases and requirements.
- Provide technical guidelines for building and managing the solution.

Example - Solution Architecture Diagram:
