

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	19 February 2026
Team ID	LTVIP2026TMIDS89796
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution for the UNESCO World Heritage Sites Analytics using Tableau.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Dashboard Access	View Dashboard 1 (Overview) View Dashboard 2 (Danger Site Analysis) Access Project Story
FR-2	Data Visualization	Interactive Maps Category Charts (Cultural, Natural, Mixed) Regional Analysis Graphs
FR-3	Tableau Integration	Embed Tableau Dashboards Load Story Pages Display Interactive Reports
FR-4	Web Application (Flask)	Render HTML Templates Route Management Local Server Execution
FR-5	User Interaction	Hover & Filter Data Navigate Between Sections View Analytics Insights
FR-6	Reporting & Analysis	Trend Analysis Over Years Danger Site Monitoring Regional Comparison

Non-Functional Requirements:

Following are the non-functional requirements of the proposed solution for the UNESCO World Heritage Sites Analytics using Tableau.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The web interface should be simple, visually clear, and easy to navigate so that users can explore dashboards without technical difficulty.
NFR-2	Security	The application should use safe embedding of Tableau dashboards and maintain secure routing within the Flask environment.
NFR-3	Reliability	The system should consistently load dashboards and story pages

FR No.	Non-Functional Requirement	Description
		without errors during normal usage.
NFR-4	Performance	Dashboards should load efficiently with minimal delay, and interactions such as filters and navigation should respond smoothly.
NFR-5	Availability	The application should be accessible whenever the Flask server and Tableau Public services are active.
NFR-6	Scalability	The system should allow future addition of new dashboards, datasets, or features without major redesign.
